

$A \parallel$ Things Rational

Rational Numbers

Explore how the contexts, models, and ideas for rational numbers extend from Math 7 to Calculus, with an emphasis on deep mathematical thinking and discourse.

Rational **Functions**

This course is taught over two weekend sessions, beginning at 5:00 PM on Thursday evening and ending Saturday afternoon.

This course is FREE! Two Cactus or SUU credits are available.

Rational **Thinking**

Alpine PDC room 316, 575 N. 100 E. American Fork April 15-17 and May 20-22

Statistics is FUNdamental

This 4-day course examines statistics in the Utah State Core Curriculum. Participants will explore measures of central tendency and dispersion, and examine topics such as normal distributions and probability. Teachers will receive materials necessary to replicate lessons in their classrooms.

This course is FREE!

Three Cactus or SUU credits are available.

Lone Peak High School 10189 North 4800 West Highland, Utah 84003

June 1-4 from 8:00 AM -6:30 PM

Focus on Function

This 5-day course focuses on the development of function from middle school through Precalculus. Participants will explore function using a variety of modeling methods and engage in mathematical discourse.

This course is FREE!

Three Cactus or SUU credits are avaílable.

Willowcreek Middle School 2275 West 300 North Lehi, Utah 84043

June 23-25, and June 28, 29 8:00 AM-4:00 PM
